To: Teachers and educators
From: Dominik Kalweit, Project Management, Conectando Mundos (Malta)
Subject: Invitation to the seminar and discussion on Conectando Mundos' draft
"Position Paper on Global Citizenship Education"

Within the past two years, Inizjamed's educational programme *Conectando Mundos* (CM) has been elaborating the first national *Manifesto on Global Citizenship and Development Education* (GCE and DE). In a similar process, in Italy, Portugal and Spain, the CM consortium partners have developed national manifestos on GCE, as well. Subsequently, a draft joint trans-national *Position Paper* has been created during the last months. This document will provide a scientific tool to advocate for an education of justice and human rights within European classrooms at all educational levels.

In this crucial phase of the development of this document, *Conectando Mundos* in collaboration with *SKOP*, the National Platform of Maltese NGOs, invites you to participate in a seminar and discussion about the draft "*Position Paper on Global Citizenship Education*".

During this seminar, Inizjamed, Conectando Mundos and SKOP will be presented and the Position Paper will be explained so as to initiate a discussion amongst formal, informal and non-formal educators, members of academia and civil society activists. The outcomes of this discussion will be presented to the consortium partners and integrated into the final version of the Position Paper.

Date: **19 December 2007**

Time: **16.20h – 18.30h**

Venue: **University of Malta, Lecture Centre**

Agenda: ***Introduction of Inizjamed, CMM, SKOP***
